15. **Development of an add-in for Microsoft Excel 2007/2010/2013.** The project involved technologies such as C# (.NET) [VS 2012], WPF, Sikuli IDE, Eclipse, JDK, and SnagIt. Handled the development as well as automation testing for each functionality implemented for the Excel add-in (implemented in C#) (2016).
16. **Development of a Mobile Application for diagnosing whether the patient is suffering from liver disease or not.** It involved technologies such as C# (.NET) [VS 2012], jQuery, JS, CSS, HTML5, SQL (SQL Management Studio 2008), WCF, MVC, and EF. Handled server-side work entailing database connectivity and MVC web application for admin, and making methods for WCF services exposed. (2015).
17. **Development of a website for the Annual Technical Festival for the Department of Computer Science – SANKALAN 2014.** The project involved technologies such as HTML, PHP, JavaScript, jQuery, Ajax, MySQL, and CSS. Responsible for handling back-end activities.
18. **Implementation of Mini-DBMS in C++,** a generic system that stores data and performs basic functionalities of accepting commands, executing valid commands and displaying results based on the query fired (2014).
19. **Worked on a project under the guidance of Mrs. Neelima Gupta and Mr. Aditya Pancholi on the implementation of Undergraduate Admission (UGA) Software for Delhi University** handled front-end designing and back-end database connectivity (2013-2014). The project involved the development of a fully automated undergraduate admission system for the University. It has many components, such as student's admission, application submission, saving college-course preferences, allotment of seats to students according to marks and preferences, an admin module to specify the eligibility, and merit criteria for the courses offered. The project involved technologies such as HTML, PHP, JavaScript, jQuery, AJAX, MySQL, and CSS.
20. **Simulation of the C Compiler,** using Lex and Yacc (2013).
21. **Development of a service management portal** consisting of various individual modules such as technical user, client, security, and maintenance modules. The project involved technologies such as MVC, WCF, EF, VS 2013, SQL Management Studio 2012, TFS, and Fluent MVC for validation.
22. **Development of an ASP.NET web application for handling criminals after being admitted to jails.** It involved technologies such as C# (.NET) [VS 2008], SQL (SQL Management Studio 2008), and ASP.NET.

Areas of Interest / Specialization

Compiler Design, System Programming, Software Engineering, Computer Networks, Database Management Systems, Unmanned Aerial Vehicles, and Path Planning

Subjects Taught

Database Management System (DBMS), Multimedia Applications and Systems, System Programming, Data Structures, Search Engine Optimization, Web Design Using HTML5, Multimedia

and Web Design, PHP Programming, Word Processing & Presentation Software, Web Design & Development, Programming Using Python, Introduction to Database Systems, Android Programming, Programming Fundamentals with C++, IT Tools, Compiler Design, Object Oriented Programming using C++, Parallel Programming, Digital Empowerment, Introduction to Web programming

Research Guidance (if any)

Guided Kanishk Aneja, B.Sc. (H) Computer Science, and Rachit Arora, B.A. Program under 4th Year Academic Track (Dissertation) under UGCF 2022 on **“Coordination Strategies for Navigation and Path Planning in Multiple UAV Platforms”** and **“The Enhancement of Interpretability and Transparency in the Financial AI through Multi-agent Models”** respectively.
